FIELD MOBILE WORKER

State and Local Government

UniStrong rugged phone raise the productivity levels of field-based government users involved in case work, records maintenance, inspections/appraisals, code enforcement, receipt/transfer of goods, and first response services.

Field Services

For field service professionals, UniStrong rugged phone are powerful productivity tools to access, enter and transmit up-to-the-minute data; communicate constantly; close sales deals and contracts; and analyze, report and act on data findings while in the field.

Security / Facility Management

Today's security operate in an increasingly complex environment. As service become more empowered through the anywhere availability of information, government must identify new ways to keep citizens engaged. In many cases there is more data available than ever before, but if it isn't readily accessible and up to date then its value cannot be fully realized. That's where UniStrong rugged phone come in. Designed for mobile environments and featuring security capabilities, UniStrong rugged phone are driving improved transaction times, more convenient, and improved the efficiency.

Construction

UniStrong rugged phone have proven ability to reduce construction project costs through real time access to information at the point of construction. We deliver solutions that integrate into existing work patterns and systems.

System	
Operating System	Google Android 4.3
Hardware	
Platform	Qualcomm MSM8928 Quad-core 1.6G GSM(850/900/1800/1900)
Network	WCDMA(2100/1900/850)
	TD-SCDMA(B34,B39)
	FDD LTE (B3,B7)
	TDD LTE(B38,B39,B40)
Memory	2GB+16GB
Size	164mmX82mmX15.2mm
Weight	290g
Screen	5.3 inch 1280x720 HD , sunlight readable, 400 cd/m ²
Speaker	105db at 10cm
Touch Panel	Projected capacitive touch screen, support wet and golve operation, Corning glass with 7H hardness
Rear cam	13M pixel with flash
Front cam	2M pixel
Location	High precision GPS(uBlox solution), CEP≤3m;2RMS≤5m
Bluetooth	BT4.0 support BLE
WIFI	Support 802.11 b/g/n/k/r ,2.4GHz
Active RFID	13.56 MHZ support card and reader mode
IP Protection	IP67,1.2m drop resistance
Others	
Sensor	Support light sensor, distance sensor, 3d acceleration sensor, magnetic sensor and Barometric altimeter
ESD	Contact : ±8 kV ; Air discharge:±15kV
USB port	USB2.0 OTG 5pin Micro USB
AV-IN	AV-IN support video record
Headphone	3.5mm
TF card	Max 32GB
Pogo-pin	support mult-accessories
Battery	3100mAh(optional 4800mAh)
Operating temperatures	-20°C-60°C
