

UniStrong

E7759 HK version FIELD MOBILE WORKER

State and Local Government

UniStrong rugged tablet raise the productivity levels of field-based government users involved in case work, records maintenance, inspections/appraisals, code enforcement, receipt/transfer of goods, and first response services.

Field Services

For field service professionals, UniStrong rugged tablet are powerful productivity tools to access, enter and transmit up-to-the-minute data; communicate constantly; close sales deals and contracts; and analyze, report and act on data findings while in the field.

Security / Facility Management

Today's security operate in an increasingly complex environment. As service become more empowered through the anywhere availability of information, goverment must identify new ways to keep citizens engaged. In many cases there is more data available than ever before, but if it isn't readily accessible and up to date then its value cannot be fully realized. That's where UniStrong rugged tablet come in. Designed for mobile environments and featuring security capabilities, UniStrong rugged tablets are driving improved transaction times, more convenient, and improved the efficiency.

Construction

UniStrong rugged tablets have proven ability to reduce construction project costs through real time access to information at the point of construction. We deliver solutions that integrate into existing work patterns and systems.
